

A background image showing four students in a library setting. A young woman on the left is smiling and looking towards the center. A young man in the center is also smiling and looking towards the right. A woman with glasses on the right is looking at a laptop. Another person is partially visible on the far right. The background is filled with bookshelves. Overlaid on this image are semi-transparent geometric shapes: a large blue triangle on the left and a red trapezoid at the bottom.

Java 25

Compact Source Files and Instance Main Methods

Compact Source Files

- Initially a preview feature in Java 21 (JEP 445) where it was known as “Unnamed classes”.
- Now a Closed/Delivered feature in Java 25 (JEP 512).
- Notable differences:
 - A new class `java.lang.IO` to ease input/output to the console (based on `System.in` and `System.out`).
 - Every compact source file begins with `import module java.base;`
