

A photograph of four students in a library setting. A young woman with long dark hair is on the left, smiling. Next to her is a young man with dark hair, also smiling. To his right is a young woman with glasses and dark hair, looking towards the right. On the far right is a young man with dark hair, seen from the back/side, looking at a laptop. They are all gathered around a table with a laptop, books, and papers. The background is filled with bookshelves. A semi-transparent blue diagonal band runs across the image, and a semi-transparent red horizontal band is at the bottom.

Java 25

Introduction

Java 25

- Java 25 was released on September 16th, 2025.
- Java 25 is a LTS (Long-Term Support) release; following on from Java 8, 11, 17 and 21.
- Topics covered here are all “Delivered”:
 - Unnamed Variables and Patterns <https://openjdk.org/jeps/456>
 - Markdown Documentation Comments <https://openjdk.org/jeps/467>
 - Module Import Declarations <https://openjdk.org/jeps/511>
 - Compact Source Files and Instance Main Methods <https://openjdk.org/jeps/512>
 - Flexible Constructor Bodies <https://openjdk.org/jeps/513>
 - Scoped Values <https://openjdk.org/jeps/506>
 - Stream Gatherers <https://openjdk.org/jeps/485>

Feature/Release Table

Feature	JEP	Release	Comments
Unnamed Variables and Patterns	456	22	Use <code>_</code> to ignore variables you don't need, making code cleaner and more readable.
Markdown Documentation Comments	467	23	Write Java API documentation in Markdown for cleaner, more readable docs.
Module Import Declarations	511	25	Import a module's exported packages with one line, instead of many individual imports. Co-developed with "Compact Source Files and Instance Main Methods".
Compact Source Files and Instance Main Methods	512	25	Write small programs without declaring a class, using a simple instance <i>main()</i> instead of the usual <i>static main</i> . Closely related to a previous preview feature JEP 445 (see Java 21 section). Revisit.
Flexible Constructor Bodies	513	25	Enable constructors to perform setup/validation before calling <i>this(...)</i> or <i>super(...)</i> .

Feature/Release Table

Feature	JEP	Release	Comments
Scoped Values	506	25	Pass context (like user ID), through deep call stacks without changing method signatures.
Stream Gatherers	485	24	Makes advanced stream transformations possible without awkward collectors or extra loops.
